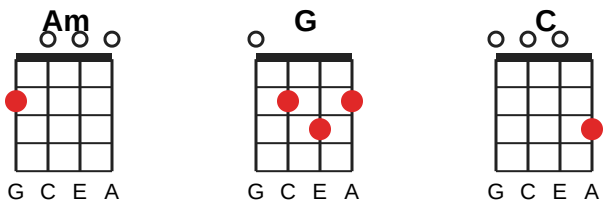
Ronnie-Mode!

Ukulele tab · Martial-arts disco theme from Super Hat Bros · Composed for Ronnie, 2026

♩ **= 124 · 4/4 · standard tuning G C E A.** Every number is a fret, 0 = open string. Numbers in a row are eighth notes, two per beat.

Chords



Only three chords, and they loop: Am · G · Am · C. The red dots are where your fingers go, the open circles are strings you play open.

Melody (the 4-bar riff, all on the A string)

```
   Am                          G                           Am                          C
   1--+--2--+--3--+--4--+--  1--+--2--+--3--+--4--+--  1--+--2--+--3--+--4--+--  1--+--2--+--3--+--4--+--
A|--0--3--5--7-----5--3--0-|-10--0--3-----0-10--7----|--0--3--5--7-10--7--5--3-|--0-----7--5--3-----0----|
E|--------------------------|--------------------------|--------------------------|--------------------------|
C|--------------------------|--------------------------|--------------------------|--------------------------|
G|--------------------------|--------------------------|--------------------------|--------------------------|
```

Tip: fret 10 is high up the neck. If it is a stretch, play fret 7 there instead; it still sounds right.

Chord stabs (what the brass does: odd bars only, beat 1 and the "and" of 2)

```
   Am                          (rest)                      Am                          (rest)
   1--+--2--+--3--+--4--+--  1--+--2--+--3--+--4--+--  1--+--2--+--3--+--4--+--  1--+--2--+--3--+--4--+--
A|--0--------0-------------|--------------------------|--0--------0-------------|--------------------------|
E|--0--------0-------------|--------------------------|--0--------0-------------|--------------------------|
C|--0--------0-------------|--------------------------|--0--------0-------------|--------------------------|
G|--2--------2-------------|--------------------------|--2--------2-------------|--------------------------|
```

Strum pattern (to play the whole song as chords)

```
1   +   2   +   3   +   4   +      (every bar, all four chords: Am | G | Am | C)
D       D   U   D   U   D   U      D = strum down, U = strum up. Keep it steady and bouncy, like a disco beat.
(mute the strings with your palm on the "+" after 1 to get the "chug" from the bass line)
```

Road map (24 bars, then it loops)

```
Bars 1–2    strum Am | G, no melody yet (the gong rings at bar 1)
Bars 3–4    melody bars 3 and 4
Bars 5–8    the full 4-bar melody
Bars 9–16   same melody, louder, or an octave up if you can reach (frets 12, 15, 17, 19, 22)
Bar 13      gong
Bars 17–24  melody again, then back to bar 1
"HA!"       shout it on beat 4 of bars 4, 8, 12, 16, 20 and 24
```

Two ukes? One plays the melody line, the other strums the pattern. That is the whole song.
